DF Non Slam Recoil Check Valve Metal Seated- Flanged PN16 Size Range: 100mm - 1400mm

Non Slam Recoil Check Valves

Size Range 100mm - 1400mm

Compact Design - complies with WIMES Spec.

High Strength Ductile Iron Body/Bonnet & Disc

Aluminium Bronze Seats for increased corrosion protection.

Stainless Steel Shaft-SS420 as standard with upgrade options to SS304 or SS316 for more aggressive mediums

Bronze Bearings.

O-Ring Seals in EPDM or NBR optional.

Angled Inlet for rapid closing - Ideal for high fluid velocities.

Single piece angled Disc & Arm design reduces slamming and gives large open area to significantly reduce headloss across the valve.

Valves fitted with dedicated lifting points.

Valves fitted with Stainless Steel vent plug and drain plug as standard-A2min grade.

Integral cast supporting feet.

WRAS approved FBE coating as standard

Flanged PN16 as standard

Options:

- * Bolts can be upgraded to A2 or A4
- * Shaft can be upgraded to SS304 or SS316
- * Open/close indicator switch can be fitted
- * Can be fitted with Bypass Valve

All options subject to agreed lead times.
